Languages: Finnish, English

Julia advises clients on energy-related projects and in the field of environmental law. She has gained an extensive understanding of existing and forthcoming hydrogen-related EU regulation through various projects and academic research. Julia's master's thesis contributed to a multi-discipline feasibility study on an industrial-scale Power-to-X pilot plant, in which she focused on assessing the implications of the recast Renewable Energy Directive on hydrogen-derived Power-to-X fuels. Julia joined the firm as an associate trainee in 2020 and was appointed as an associate lawyer upon her graduation in 2020.
