LL.D., attorney at law Juli Mansnérus has vast experience with IP/life sciences related commercialisation strategy aspects and regulatory compliance issues. Her experience also includes extensive work with high value, cross-border litigations relating to pharmaceuticals, medical devices and telecom industry.

Juli frequently advises transnational clients in a wide range of industries in all fields of IP law, IP related litigation, data protection and contract law. In addition, she is involved in IP-driven M&A transactions. Before joining our Intellectual Property & Technology team Juli worked as a transaction lawyer in our M&A team and acquired a broad knowledge on capital markets transactions, as well as on various company acquisitions.

Juli holds a doctorate in law from the University of Helsinki. Her research interests relate to commercialisation of new medical innovations and health technologies. She has also gained some significant exposure to life sciences at the University of Edinburgh and been awarded a M.Sc. in Translational Medicine with Distinction. Juli is involved in academia as a post-doctoral researcher and a responsible teacher of a number of university courses and seminars in topics relating to European and Nordic health law, IP law and consumer law.
